### Investment Strategy

SMI-indexed investment strategy with actively managed option hedging strategy. The investment universe of the investment group comprises companies from the SMI; weighted by market capitalisation. Investments may take the form of participation securities, collective investments or derivative instruments. The additional use of a hedging strategy involving options has the effect of reducing price losses in the event of heavily falling markets and limiting upside potential in the event of sharply rising market. Depending on market assessment, the sale of the put option and/or of the call option may be waived. Implementation via investment in SLF (CH) Equity Switzerland Protect Enhanced.
