Manager's report

Review

The net asset value (NAV) of Swiss Life Infrastructure Global ESG (CHF hedged) as at 31 March 2023 amounts to CHF 120 701 596.09 (CHF 110.45 per entitlement (standard tranche)/CHF 110.94 per entitlement (PM tranche)). Looking at the NAV of the investment group in Q1 2023

compared to the price in Q4 2022 of CHF 109.26 per entitlement (standard tranche)/CHF 109.67 per entitlement (PM tranche), the NAV shows a positive development of +1.09% (standard tranche)/+1.16% (PM tranche).

NAV development

NAV	as at 31.12.2022	as at 31.03.2023
CHF - CH0568979923 (Standard tranche)	109.26	110.45
CHF - CH0596052263 (PM tranche)	109.67	110.94

Infrastructure Global ESG (CHF hedged) key figures

Key figures	as at 31.12.2022	as at 31.03.2023
Commitments from investors in CHF m	182.70	248.10
Paid-in capital in CHF m	112.93	112.93
Commitments to investments in EUR m	151.80	223.25
Total invested in EUR m	110.34	110.34
Distributions in EUR m	-	-

DPI (Distributions / Paid-in Capital)	-	
Number of investments	1	
TER		
Total expense ratio TER KGAST 30.09.2022 ¹	2.19% (ex-ante)	2.42% (ex-post)
Total expense ratio indicative TER ²	approx. 1.29%	

¹ TER will be calculated once a year for the financial year-end at 30.09

² The indicative TER for an investment via the standard tranche comprises both estimated costs of the investment group and TER estimates of the target funds without any performance fees at target fund level on a smoothed basis over an investment period of 25 years. The range is based on a model calculation in line with the provisional composition of the initial portfolio, assuming different average volumes and taking into account the use of lower-cost unit classes at target fund level with a higher volume of the investment group. During the build-up phase, the effective TER may be higher.

Deal activity and outlook

The Infrastructure Global ESG (CHF hedged) investment group invested another CHF 5.3 million in the Infrastructure Global ESG (EUR) investment group in Q1 2023. These were capital calls of the two core infrastructure target funds Swiss Life Funds (LUX) ESG Global Infrastructure Opportunities III and Swiss Life Funds (LUX) ESG GIO III Co-Invest as well as smaller calls of the greenfield projects

Co-Investment JFK via JLC Terminal One Co-Invest L.P. and Co-Investment BCP Battery Holding Sàrl. After the successful third opening phase, the total capital commitments of the two infrastructure investment groups amount to around EUR 500 million. Further allocations of the new capital commitments to target funds will follow in Q2 2023.

Breakdown

Investor commitment by currency
(100% = CHF 248.10 m)

NAV breakdown by currency
(100% = CHF 120.70 m)

Breakdown of the investment portfolio based on NAV

The investment group Infrastructure Global ESG (CHF hedged) is invested only in the investment group Infrastructure Global ESG (EUR) besides its hedging activities. The

following charts therefore show the NAV breakdown based on the investment portfolio of the investment group Infrastructure Global ESG (EUR).

NAV look-through breakdown by region
(100% = CHF 120.70 m)

NAV look-through breakdown by sector
(100% = CHF 120.70 m)

Please note that due to rounding, numbers presented throughout this report may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figure.

Investment period	5 years from final closing
First closing	July 2022
Target return	Net IRR 5–7%
Target cash yield	approx. 3–5% p.a.
Commitment of Swiss Life Investment Foundation, Investment Group Infrastructure Global ESG (EUR)	EUR 25 million

Direct investment via Swiss Life Infrastructure Global ESG (EUR)

Energy Assets Group

Investment overview

Location	UK
Sector	Energy infrastructure
Investment date	July 2021
Ownership	1.4%

Description

Energy Asset Group (“EAG”) is a vertically integrated energy metering business in the UK. EAG operates two business units: Energy Assets Infrastructure (“EAI”) and Energy Assets Utilities (“EAU”). EAI operates and maintains advanced industrial & commercial (“I&C”) gas and electricity meters and “last-mile” utility connections for gas and electricity networks. EAU is engaged in the design and construction of residential and commercial last-mile electricity, fibre and water connections.

Altitude infrastructure THD

Investment overview

Location	France
Sector	Communications
Investment date	December 2021
Ownership	0.5%

Description

Altitude Infrastructure THD (“AITHD”) is a leading independent fibre-to-the-home (“FttH”) network operator in France. The company aims to deploy and operate 4.4 million connections in France, in low-density areas of the country.

AITHD operates 25 public initiative networks (“PIN”) and is the largest player on the PIN market. It has entered into wholesale agreements with 80+ communications operators, including the four leading ISPs (Orange, SFR, Bouygues Telecom and Free).

Almaviva Santé SAS

Investment overview

Location	France
Sector	Social infrastructure
Investment date	May 2022
Ownership	1.25%

Description

Almaviva, headquartered in Puyricard (Aix-en-Provence), is the fourth-largest private hospital group in France with over 4200 beds and more than 480 000 patients per year at 42 private hospitals. Almaviva operates the private clinics and specialises in several areas, including orthopaedics, ophthalmology, cardiology, gynaecology and digestive surgery, as well as dialysis oncology and medical imaging.

BCP Battery Holding Sàrl

Investment overview

Location	Germany
Sector	Renewable energy/energy
Investment date	June 2022
Ownership	5.56%

Description

BCP has exclusive rights with several renowned German developers to build up a portfolio of battery energy storage systems with a capacity of approx. 420 MWh. As an initial investment, BCP purchased a 68 MWh battery storage project currently under construction.

Thames Tideway Tunnel

Investment overview

Location	UK
Sector	Utilities
Investment date	September 2022
Ownership	0.7%

Description

The Thames Tideway Tunnel (TTT) is a sewer currently under construction in London. Once built, the tunnel will be 25 km long, around 7 m in diameter, and will largely follow the course of the Thames up to a maximum of 66 m underground. The purpose of the Thames Tideway Tunnel is to intercept, collect and transport overflowing sewage when the current sewage system is overloaded, thereby preventing sewage from flowing into the River Thames.

JFK New Terminal One

Investment overview

Location	North America
Sector	Transport
Investment date	August 2022
Ownership	0.4%

Description

John F. Kennedy International Airport (JFK) is the main transportation hub in New York City. JFK is still one of the busiest airports in the world, and JFK New Terminal One (“JFK NTO”) will welcome travellers to and from major destinations and international gateways.

JFK NTO will be a state-of-the-art terminal expected to be fully completed by 2030. Project construction began in Q3 2022, with the first phase to be opened to the public in 2026. The terminal, with its sustainable and future-oriented design, will be supported by state-of-the-art technologies.

Saffir/Borssele III & IV

Investment overview

Location	Offshore Netherlands
Sector	Renewable energy/energy
Investment date	November 2022
Ownership	1.4%

Description

Borssele III & IV is a wind farm off the Dutch coast. The construction phase was completed in November 2021 and the wind farm is fully operational and has a capacity of 731MW.

Investment Pipeline via Swiss Life Infrastructure Global ESG (EUR)

Swiss Life Funds (LUX) ESG Global Infrastructure Opportunities Growth II¹

Key terms

Investment objective	Creation of a diversified portfolio of infrastructure investments with a growth strategy in various sectors
Portfolio diversification	10–12 investments, max. 20% per individual investment, max. 50% per country
Geographic focus	OECD with focus on Europe and North America
Stage	Brownfield, greenfield
Currency	EUR
