Who we are

As an ambitious, well-known and reliable asset manager and a leading institutional real estate investor, we have a presence in multiple European locations.

We think long term and act responsibly. Drawing on our knowledge and experience of over 165 years in risk management, we develop future-oriented investment solutions. That includes the provision and active management of a broad range of investment solutions in the fixed income, real estate, equity, infrastructure and multi-asset investment classes. That's how we support our clients in achieving their long-term investment objectives. This in turn helps their clients to plan long term and act with financial self-determination.
