Who we are

We are one of Europe's leading institutional real estate investors and have a presence in multiple European locations.

Thanks to over 130 years of experience in the real estate business, we have the expertise to develop real estate portfolios throughout different cycles.

We focus on real estate investments in our core European markets. Here we work with local teams of experts who possess extensive know-how and excellent market knowledge of real estate asset management. That's how we support our clients in achieving their long-term investment objectives. This in turn helps their clients to plan long term and act with financial self-determination.
